WARNINGS

If you get any warnings similar to the one shown below when designing your frames, then please read them. It's usually advising you that the item cannot be priced. These warning will remain on screen until you click on it.

DO NOT IGNORE THESE WARNINGS

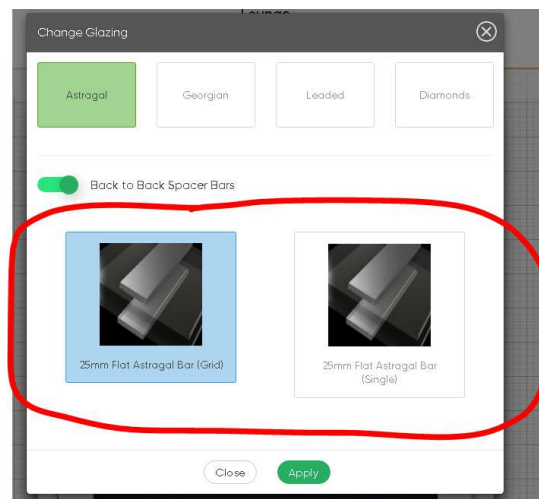

EGRESS STAYS

Egress stays are included as standard

ASTRAGAL BARS

Astragal bars can be added in the 'GLAZING' section. Please select either 'GRID' or 'SINGLE BAR' from the menu (see screenshot below). Note: These options only affect the price, they will not change the astragal bar layout. You must select the correct option then draw the correct astragal bar layout on the window/door.

DUMMY PEGSTAYS

TT will not show the correct colour when you select dummy pegstays for flush windows. It will always show them chrome. It will just display an image of the dummy pegstay to indicate that one has been included. When the product gets ordered, the dummy pegstay colour will be matched to the handle colour.

FLYING MULLION

To price a flying mullion window, design the style as a double side hung opener. You then need to add the Extra for Flying Mullion from the Parts Shop. This adds the extra cost.

PARTS SHOP

The following items need to be selected from the Parts Shop. They cannot be selected when designing a window/door:-

- Thumbturn Cylinders
- Keyed Alike Cylinders
- Extra for Load Bearing Baypole
- Panic bars
- Cat flaps
