The general criteria for egress windows:

1. Width and Height - either of these are not to be any less than 450mm.
2. The window should have an unobstructed clear openable area - No less than 0.33m²
3. Cill height - No less than 800mm and no more than 1100mm from floor level.
4. Lock (with or without keys) and stays may be fitted to egress windows, subject to the stay being fitted with a release catch, which may be child resistant.
5. Only one window per room is generally required.
