

7.5mm COUPLER

Description - Refer also coupling mullion - coupling joint between two frames allows for expansion.

As you can see in this diagram, the coupler is inserted between two pieces of outer frame profile and acts as a joiner. The gap which is caused by the coupler is concealed by a piece of trim.

Product codes - 482030 (Coupler), TTRIMFLF (Trim)

$I_{xx} (cm^4) - 11.9$
 $I_{yy} (cm^4) - 0.1$
 Frame Deduction - 7.5mm
